DOLCE BENESSERE

FEEL FREE TO ENJOY YOUR WELL-BEING

MADE IN ITALY

OUR VISION

TAKING CARE OF YOUR BODY

It generates a type of warmth that is constant, uniform, targeted and safe, all factors to promote muscular relaxation and reduce the stiffness of joints and consequently, also pain.

STARTING PRECISELY FROM THESE ELEMENTS AND FROM THE NEED TO IMPROVE INDIVIDUAL WELL-BEING AND THE QUALITY OF LIFE, WE HAVE DEVELOPED A NEW TECHNOLOGY

**carbon
relax**

THAT MAKES IT POSSIBLE TO GENERATE WARMTH THAT IS REVITALISING, EMBRACING AND SAFE.

We have developed a **high-tech, ergonomic heating pad, which is, at the same time, soft, flexible, resistant and safe.**

ABBIAMO **DEFINITIVAMENTE ELIMINATO** L'USO DI **CAVI ELETTRICI** NELLA ZONA RISCALDATA

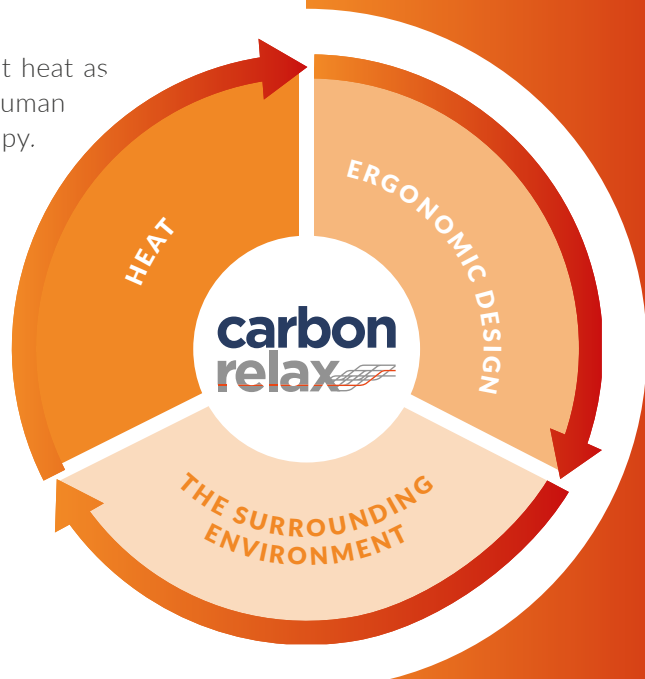

and with this, also the problem of uneven, inconstant heat as well as protuberances that are bothersome for the human body and for those body parts treated with heat therapy.

If the spine is forced to hold an incorrect, non-physiological position due to the presence of electrical cables in the "heated" area, it does nothing more than worsen the muscular tension and to stiffen the area treated even more.

WHEN SPEAKING OF HEATING PADS FOR PERSONAL WELL-BEING, UNFORTUNATELY, LITTLE IMPORTANCE AND ATTENTION IS PAID TO THE QUALITY OF THE HEAT AND TO THE ERGONOMIC DESIGN OF THE PRODUCT ITSELF. THESE ARE INDISPENSABLE ELEMENTS TO ACHIEVE THE RIGHT MUSCULAR RELAXATION AND AN OPTIMAL STATE OF BODILY WELL-BEING.

GOOD HEAT THERAPY REST DEPENDS ON THE QUALITY OF THREE FACTORS:

- HEAT
- ERGONOMIC DESIGN
- THE SURROUNDING ENVIRONMENT

THE USE OF **CARBON RELAX TECHNOLOGY** AS WELL AS THE VERY **LOW-VOLTAGE POWER SUPPLY** (ONLY 5 VOLT) MAKES IT POSSIBLE TO OBTAIN A **100% SAFE HEAT THAT IS UNIFORM, TARGETED AND CONSTANT**, CAPABLE OF DISSIPATING AND RELAXING ACCUMULATED MUSCULAR TENSION AND SIGNIFICANTLY REDUCING JOINT STIFFNESS.

The high-tech carbon nanotube yarn generates heat that spreads throughout the body, affecting adipose tissue and muscle.

DOLCE BENESSERE

FEEL FREE TO ENJOY
YOUR WELL-BEING

DOLCE BENESSERE GENERATES A TYPE OF WARMTH THAT IS TARGETED, RAPID, COMFORTABLE AND NON-INVASIVE.

DOLCE BENESSERE is an extremely innovative heating pad with cutting-edge technical characteristics, capable of satisfying even the most demanding requirements in terms of performance and safety.

DOLCE BENESSERE THE UTMOST FLEXIBILITY BOTH AT HOME AND OUTDOORS.

DOLCE BENESSERE REPRESENTS VALID HELP TO PROVIDE RELIEF FROM MUSCULAR AND JOINT PAIN, DUE TO FATIGUE AND MUSCULAR STRESS, SPRAINS AND ARTHRITIS.

It generates a invigorating, relaxing and embracing warmth that acts deeply and in a targeted way, directly affecting the adipose tissue and the muscle.

We have created different solutions, to be used from the lumbar to the cervical regions, from the shoulder to the elbow, to provide you with the utmost well-being and comfort.

DOLCE BENESSERE is the concrete solution for those who wish to take care of themselves, of others as well as the environment in which they live: the innovative Carbon Relax technology prevents the formation of harmful electromagnetic fields, bothersome protuberances and overheated areas of both an invasive and superficial nature.

Powered by means of a power bank, only 5V.

STUDIED AND DESIGNED TO IMPROVE THE BODILY WELL-BEING OF SPORTSPEOPLE, IS SUITABLE FOR PERSON WHO SUFFER FROM MUSCULAR PAIN AND JOINT PROBLEMS.

THEY ARE:

- BATTERY -POWERED
- HIGHLY EFFICIENT
- HANDY
- FLEXIBLE AND LIGHT

THEY OFFER YOU FREEDOM OF MOVEMENT, IDEAL FOR USE IN INDOOR AND OUTDOOR MOVEMENTS AND CAN ALSO BE WORN UNDER GARMENTS.

TAKE A PRODUCT HOME WITH A REFINED **ITALIAN DESIGN** AND AN **INNOVATIVE TECHNOLOGY** THAT PROVIDES **WELL-BEING, WARMTH AND COMFORT**

SAFE AND HEALTHY

The extremely low voltage, only 5 Volt, reduces the impact of harmful electromagnetic radiation. In this way, a type of warmth that is healthy and safe for both humans and the surrounding environment.

ITALIAN DESIGN

The utmost softness and flexibility blended with its unique design and fine fabric – a priceless experience of Italian well-being.

ENERGY-SAVING

The utmost efficiency of the Carbon Relax technology guarantees a reduction in energy consumption, approximately 35% less than technologies currently in use, with a consequent energy saving.

HOW IT WORKS

The on-board electronics consist of two distinctive elements.

POWER BANK

Power bank powers (Safety Extra Low Voltage) the heating pad and it is equipped with a **luminous LCD display** that allows to read the state of loading at any time whatsoever as well as an **On/Off button**.

ON/OFF BUTTON

The on/off button on the heating pad makes it possible to choose from **4 power levels**.

LEVEL 1 | low heating (the white LED indicator of the On/Off button lights up)

LEVEL 2 | minimum heating (the blue LED indicator of the On/Off button lights up)

LEVEL 3 | average heating (the green LED indicator of the On/Off button lights up)

LEVEL 4 | maximum heating (the red LED indicator of the On/Off button lights up)

IT IS FITTED WITH AN AUTOMATIC STOP DEVICE THAT INTERRUPTS THE EMISSION OF HEAT APPROXIMATELY 110 MINUTES AFTER THE HEATING PAD HAS BEEN SWITCHED ON.

IT IS FITTED WITH AN AUTOMATIC SHUT-OFF DEVICE, IN CASE OF MALFUNCTION.
